

Family Health Night 2018

In 2018 Give Every Child A Chance partnered with August Knodt and Lincoln Elementary School with their Wellness Night. At both schools, Blender Bike was used to make healthy smoothie. At Nile Garden, GECAC hosted its own Wellness Night/Family Health Night. Students participated in fun activities such as: face painting, fun games, MyPlate drawing station, Blender Bike, and cooking station. We would like to thank our GECAC staff and volunteers for helping us during the events.
